

Rear Commodore Newhaven Board Report

Jan 2019

1. Sea Safety Boat Subcommittee

This remains on target to meet the programme. The Seaford Sea Safety Skippers Handbook is due for issue on 9th Feb.

The refresher/upskill training starts on Sat 23rd Feb by Paddy, assisted by JO/Geraldine & Bill and continues as the NSSC Calendar

Without specific marketing, just word of mouth, we already have five people that want to be trained

Regular Mainsheet articles and bulletins are planned, with response to seasafetycommittee@nssc.org.uk. A spreadsheet has been set up to control the process

The resolve the expected clash of skippers not being able to do RO and RO's not being skippers at the same time, unless committee boat starts is in process

2. Safety Boat Responsibilities

'Legal' wording is required for the skipper, crew and RO, to put into the Skipper's Handbook

3. Safety Boat Bookings

To help with ongoing maintenance/repairs, can I be provided with dates the boats are required, that are not shown on the NSSC Calendar ie PB2 courses/others

4. Ark

The planned launch date is Tue 19th Feb 2019

5. Seaford & Piddinghoe Premises Management

The second sub committee meeting took place on Sat 5th Jan 2019

An initial service and an on - going six month preventative maintenance plan has now been set up with **Action Enviro** for the two sewerage pumping stations. Responsibilities, contact and call out details will be circulated shortly
