

Newhaven & Seaford Sailing Club

**Asbestos Induction Sheet
at
Seaford Clubhouse**

Company or club member.....

Name

Work to be carried out.....

.....

Location.....

Start Date.....Expected Finish Date.....

Note 1 This building contains asbestos, no work is to be carried out if it could disturb **Asbestos Containing Materials**.

Locations of these ACM's are shown on the **Floor Plans** with supporting details in **the Asbestos Register** and **Asbestos Management plan**.

The high risk areas are:

- **Within the 1st floor void ie: above the ground floor timber ceiling and below the first floor**
- **The ceilings to the office and cellar**

These areas have been encapsulated.

Work in these areas can only take place following a method statement approved by SAS Ltd.

Note 2 Trade people likely to disturb asbestos and are a business must provide a copy of their '**Asbestos Awareness Training Certificate**' before they start.

If ACM's are accidentally disturbed, I will stop work immediately, secure the area and inform the galley supervisor, who will phone Rear Commodore Seaford

I have read understood the above documents, and my planned work will not disturb ACM's
